

Shouq Nasser Mohammed Alluhaybi

Computer Networks & Cybersecurity Specialist

shouq.alluhaybi@gmail.com | 0598005343 | Madinah | linkedin.com/in/shouq-alluhaybi | shouq05.github.io/Portfolio

Professional Summary

Computer Networks specialist with a Bachelor's degree in Computer Science and an Intermediate Diploma in Computer Networks. Hands-on experience in **network design**, **router and switch configuration (Cisco Packet Tracer)**, and **physical device cabling**, plus a 14-week field training in **technical support**. Backed by a solid foundation in **cybersecurity** and data protection.

Technical Skills

- **Networking & Security:** Router & switch configuration, network design and simulation (Cisco Packet Tracer), physical cabling and device connectivity, TCP/IP, LAN/WAN, cybersecurity principles, data protection
- **Systems Analysis & Design:** Use Case Diagrams, EER Diagrams, Class Diagrams
- **Programming & Databases:** Java, SQL, C#, HTML/CSS, JavaScript
- **Tools & Platforms:** Flutter, Firebase, Android Studio, GitHub, Power BI, Microsoft Office

Professional Experience

IT Field Training – Computer Department | Qitaf Higher Training Institute, Madinah | 14 weeks, 2022

- Configured a **wireless local network** connecting 20+ classroom computers to the instructor's device and enabled **file and folder sharing** across all devices.
- Performed **hardware maintenance and troubleshooting** on 20 computers: diagnosed and resolved display, power-cable, keyboard, and **RAM** faults, including opening and cleaning computer cases.
- Administered Windows systems via **Command Prompt** (net accounts, winver, cleanmgr): enforced **password policies**, audited OS versions, and optimized device performance.
- Managed **user accounts** (multi-user setup and file migration), installed and deployed a **network printer** and custom software across all lab devices.
- Supported remote training sessions via **Zoom**, maintained trainee records in **Excel**, and printed 20+ course certificates weekly.
- Authored a self-study report on **wireless network security protocols** (WEP, WPA/WPA2/WPA3, RADIUS).

Education

- **Bachelor of Science in Computer Science** | Taibah University | 2026
- **Intermediate Diploma in Computer Networks** | Taibah University | 2022

Projects & Volunteer Experience

Graduation Project: UniWay – University App for New Students | Taibah University | 2026

- Implemented a **live chat feature** over **Firebase** real-time infrastructure, connecting students with volunteers for instant in-app communication.
- Contributed to building an app featuring an interactive map, FAQs, volunteer support, and real-time alerts.
- Coordinated task distribution and workflow across the team to meet project requirements on schedule.
- *Technologies: Flutter, Firebase, Java, Android Studio*

College Alumni Units Ambassador | National Volunteering Platform – Remote | Feb – Mar 2026

- Updated employment-rate data for 20+ graduates with high accuracy in data entry and follow-up.
